

## MPO<sup>PLUS</sup><sup>®</sup> STACKABLE ADAPTER 780 Series

SENKO's MPO stackable adapters are ideal for high-density applications using MPO connectors. They are available in 90- and 45-degree options to assist with fiber management in densely populated panels. Optional internal shutter gives added protection from harmful laser radiation on active ports.

The unique interlocking design allows for customization of port configurations, giving more flexibility with the design and size constraints of the mounting panel. Adapters can be assembled by the user with assembly fixture, or they can be pre-assembled to user configuration.
