

**MPO+PLUS**<sup>®</sup>

**Polarity Changeable Adapter**

The MPO Plus Polarity Changeable Adapter is designed to meet the changing needs for today's multi-fiber connector networks. It is critical that proper connector orientations are established. The TIA-568 specification calls out for 3 standard polarity options, A, B and C, which require differing key way positions. SENKO's polarity changeable adapter meets the challenges by enabling the user to "flip" the key way from key up/key down to key up/key up, obsoleting the need to change out the adapter or cable assemblies being used. Eliminate the potential for costly down time due to improper cable polarity by future proofing your network with SENKO's polarity changeable adapter.

*Note: Polarity changeable feature recommended for non-angled ferrules only*

**STANDARD POLARITY APPLICATION**

Key UP to Key DOWN

**REVERSE POLARITY APPLICATION**

**FEATURES**

- SENKO Patented Design
- Compatible with MPO Plus Premium Mini, Standard, Bayonet and Micro Latch connectors
- Standard MPO Foot Print
- Available in Black, Aqua, Heather Violet and Gray
- Flanged and Non-Flanged versions available
- Interface dimensions compliant to IEC 61754-7

1) Insert security tool

2) Remove adapter key insert

3) Rotate adapter insert 180°

4) Push adapter insert into housing
