

SN[®] GANG-CLIPS

Quad Design for 4-Channel Shuttered Adapters

SN 4CH Gang-Clip

SENKO's SN[®] Gang-clips are designed to hold four individual SN[®] connectors side by side so they can be plugged into shuttered adapters (or adapters with walls between each channel) simultaneously. This unique functionality dramatically reduces the installation time required to patch multiple connectors to high-density patch panels, as well as allowing the four duplex connectors to act as one Base-8 connector.

The Gang-clip can be used to combine four individual connectors from duplex patch cords or alternatively, four connectors from a breakout cable or fanout cable. The Gang-clip is a critical solution in applications where multiple Base-8 connections are being patched to the rear side of a patch panels. Individual SN[®] connectors can be inserted or removed from the 4-way gang-clip thanks to flexible locking clips located on the upper face of the clip.

FEATURES

- Allows multiple SN[®] connectors to be patched simultaneously
- Connectors can be individually inserted and removed without disruption to adjacent connectors
- Compact design
- Suitable for shuttered 4-channel SN[®] adapters

APPLICATIONS

- Base-8 trunk deployment
- Patch cord consolidation
- Breakout and Fanout cable assemblies
- High fiber-count backbone trunks
- Enterprise data centers

KEY BENEFITS

- ✓ **Add and remove individual connectors**
- ✓ **Allows 4 x SN[®] connectors to be patched simultaneously**

ORDERING

Plastic Quad Gang-Clip
SN EZ-Flip Connector

PART NUMBER	
6A5-CLIP-QD-02	Plastic Quad Gang-clip for Shuttered Adapters or Adapters with Walls Between Each Port (SN EZ-Flip Connectors Only) - Color White
602-CLIP-QD-02	Plastic Quad Gang-clip for Shuttered Adapters or Adapters with Walls Between Each Port (Standard SN Connectors Only) - Color White
